LUTHERCARE COMMUNITIES

March 11, 2010

To Whom It May Concern:

LutherCare Communities has been working with Grow Your Own Training since May 2009. Since then, Grow Your Own Training has taught the Employee Development workshops to nearly 200 of our employees and will soon be heading our Lunch & Learn training sessions. The dedication of the trainers is evident through their thoughtful, well planned workshops that foster employee participation and collaboration. Our employees have had nothing but wonderful things to say both about the workshops and the trainers. Not only is LutherCare blessed to have such great people training our employees, but the Grow Your Own strategy fits our non-profit budget! LutherCare would recommend any organization to consider having Grow Your Own Training come in to train their employees.

Kristen Holmlund
Human Resource Generalist
